First Three Loans Made Under Opportunity Act '64

The first three loans made to low income rural families in Virginia were announced in Richmond by L. V. Shelton, Acting State Director of the Farmers Home Administration.

These loans are authorized under the Economic Opportunity Act of 1964.

The first of these loans was made to a low-income family in Page County to purchase a used truck to enable the applicant to haul pulpwood to the railroad station. This afforded the family a livelihood at home, thereby preventing the family from having to seek employment in a city and will provide $2500 additional income.

The second loan was made to a low-income family in Greensville County to purchase livestock. This operation and other farm adjustments will increase their available income from $2,200 to $3,100 in 1965.

The other loan which was made to a low-income family in Wythe County will provide an improved standard of living. Land resources which were not being fully utilized are now being used to support a small herd of dairy cows thus giving an increase of $1000 in available family income.

These loans bear interest at one-eighth per annum and may be made in amounts up to $2500 to finance small farming businesses, services and farming enterprises. They must result in an increase in the family's income.

To be eligible for these loans, the applicant must (1) reside in a rural community consisting of towns of less than 2500 population, (2) have an income so low it does not cover basic family necessities, (3) be unable to obtain this credit elsewhere, and (4) have reasonable chance of repayment under the liberal terms of the loan.

The Farmers Home Administration has 26 offices serving the state of Virginia. The county office serving Appomattox County is located at Farmville, in the Watson Insurance Building. The county supervisor in charge is Hunter P. Evans. Anyone interested in these loans should contact Mr. Evans at Appomattox at the ASCS office on Tuesday mornings from 9:00 to 9:30 a.m. or at Farmville on Friday mornings from 8:00 a.m. to 12 noon.

Eight Area Applicants In Job Corps

The first eight applicants from the area for the federal Job Corps program have been selected, according to Houston A. Martin, manager of the Farmville district office of the Virginia Employment Commission. They will be assigned to a Job Corps site somewhere in the U. S., and will probably leave about April 15 or April 30. The men will be assigned in two groups. The first eight applicants are currently undergoing physical examinations.

The Farmville office serves a seven and one-half county area and the monthly quota was set at 30 applicants. Martin pointed out that the Manpower Training Program at Crewe probably cut down the number of applicants for the federal program.

The VEC office receives names of persons interested in the program from the Office of Economic Opportunity in Washington. The prospective Job Corps youths have mailed "opportunity cards" to the Washington office and are referred to the State Employment Commission for interviews and processing. The VEC then sends the names of applicants for the month back to the Washington office.

Vacation In Virginia

by Suzanne Guill

When planning for a vacation this summer it would benefit the Virginian to take a good look at his home state.

From the azalea gardens in Norfolk, to the Caverns of Luray one may find many beautiful, interesting, and comfortable spots to enjoy.

The spring vacationer may find in Norfolk many acres of azaleas, hundreds of varities and colors, and a beautiful sight which draws thousands of visitors each year.

Next in bloom in Virginia, is the Rhododendron, which grows high up in the Blue Ridge Mountains.

As the trlveler is enjoying the beautiful flowers he cannot miss the fertile, green valles at the foothills of the Blue Ridge. These lovely sights make up what is known as the Blue Ridge Parkway.

For one who would like to take trips underground, the Luray Caverns offer this opportunity where the stalactites and stalagmites have been formed through the years from limestone dripings to make a most unbelieving so make a most unbelievable sight.

In the rolling hills of Virginia one may visit the homes and birth - places of eight of our presidents, dating from George Washington at Mount Vernon, to Woodrow Wilson at Staunton.

A visit to Jamestown and Williamsburg takes one back at least two hundred years to show life in Virginia at that time. Here we get a picture of early life of the first permanent settlers in Virginia, and how they lived. The famous play, Common Glory, shown at Williamsburg each summer is a must for every Virginian.

The largest natural rock-formed bridge in the world is found in the mountains of Virginia. This bridge was a land grant to Thomas Jefferson by the King of England and was surveyed by George Washington when he was a young man. At the foot of the bridge, a pagent of light and sound may be seen every night of the year illustrating the creation of the earth. Special hotel accodomations are available with cafeteria or dining room facilities. The cool bridge is a wonderful vacation spot for the hot summertime.

For the mid - summer vacation, Virginia Beach is the perfect spot for those who like the sun, sea and sand. Modern hotels and motels line the beach. It also offers good food, entertainment, and shopping.

As a native of Virginia, may I say, from the mountains to the seashore, one can find no better vacation and as a native of Appomattox I invite you here.
